

## LED LIGHT FOR LOCAL LIGHTING (P/N 331206.001)

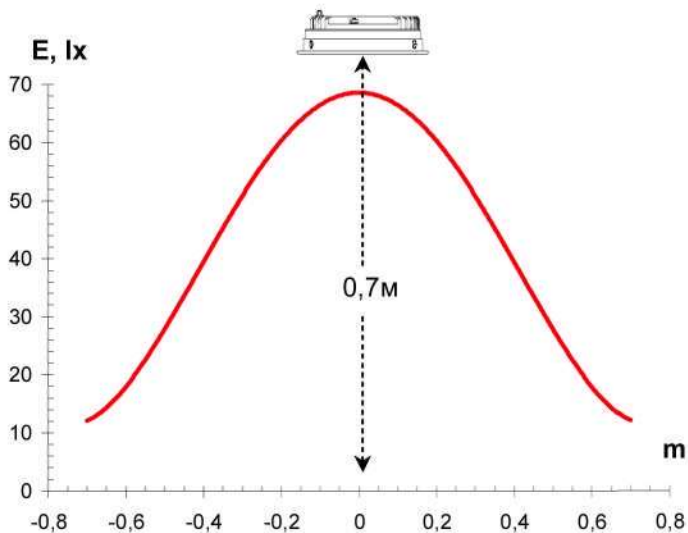

LED light is to provide local lighting in aircraft cabins.

- Solid state reliability
- Energy savings
- Electrical safety
- Easy mount

### TECHNICAL DATA

Light source	6 LEDs Luxeon™
Color	white
Color temperature (CCT), °K	4500 – 6000
Maximum operating current, A	0.3
Power consumption, W	10
Recommended power source	Current stabilizer P/N 436624.001.000, KVAND
Case	Aluminum alloy
Protective lens	PC (clear) + holographic diffuser
Weight, kg	0.21

### Distribution of illuminance

### Dimensions, kg
