

LED LUMINARIES FOR GENERAL LIGHTING (P/N 676255.001)

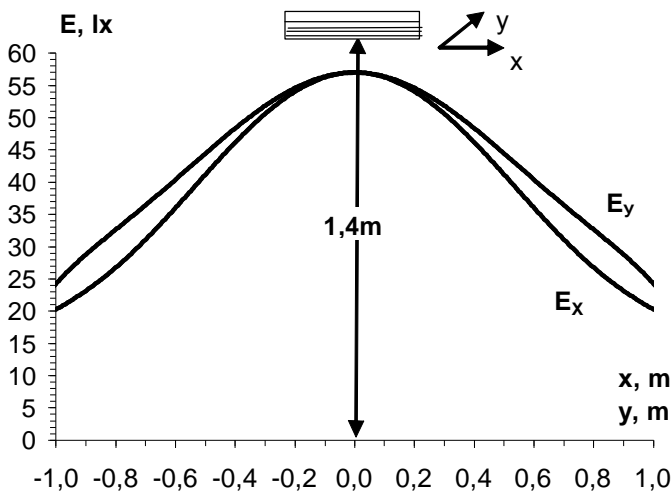

LED luminaries are intended to provide general lighting in aircraft cabin.

- Ø Ultra bright light-emitting diodes
- Ø White color luminescence
- Ø Modular construction
- Ø Uniform luminosity
- Ø Maximum operating current- 0.35 A
- Ø Case – aluminum alloy
- Ø PC (clear) + holographic alloy
- Ø Current stabilizer supplies LED luminaries.
Recommended current stabilizer is ST30-115AC of KVAND`s manufacture.

TECHNICAL SPECIFICATIONS

Power consumption P, W	Length L, mm	Recommended current stabilizer
4	114	ST30-115AC-05
8	226	ST30-115AC-01
12	330	ST30-115AC-04
15	438	ST30-115AC-02
30	870	ST30-115AC-03

Longitudinal E_x and lateral E_y distribution of illuminance P=15 W.
